Skit on Child against child abuse Introduction to CACA

Sukhoi House conducted a Child Safety Awareness skit for the students to educate about keeping themselves healthy. The session focused on

understanding the concept of saving water in a simple and age-appropriate way. Through a short skit children were taught that water is very important in our life and plays an important role in our life. We cannot live without water but people due to ignorance are wasting it . The level of water is decreasing day by day. Through the skit, the students learnt that we should save water and also increase the intake of water in our daily life.
