Report on Fire Safety Lecture

A Fire Safety Lecture was conducted on 12 May in the school premises to spread awareness among students about fire prevention and safety measures. The session was organized to educate students on how to respond calmly and wisely during fire-related emergencies.

The resource person explained the common causes of fire accidents and demonstrated important safety precautions to be followed at home, school, and public places. Students were guided about the proper use of fire extinguishers, emergency exits, and evacuation procedures. The lecture also emphasized the importance of alertness, quick action, and teamwork during emergencies.

The session was highly informative and interactive. Students actively participated by asking questions and sharing their observations. The lecture helped in enhancing awareness and preparedness among students regarding fire safety and emergency management.

The programme concluded successfully with a message encouraging everyone to remain cautious and responsible for ensuring safety in their surroundings.
